

The Next Generation of Security Solutions

For nearly 50 years, Sonitrol has provided comprehensive security solutions to businesses nationwide and abroad. We provide our customers with best-of-breed technology backed by our unparalleled Commitment to Service, which covers performance, product satisfaction, service, and false alarm guarantees.

Verified Audio Detection

- Audio sensors are strategically located to detect the sound of a break-in prior to entry
- Activation of a hold-up button transmits live audio to Sonitrol's Central Station providing real-time information to responding authorities
- Assisted the police in apprehending criminals, over 155,000 and climbing
- Significantly reduces false alarms

Managed Access Control

- Protect your assets by limiting unauthorized access to sensitive areas
- Provides detailed audit trail of facility entries and exits by card holder name, date, time, door, etc.
- Reduces the need for on-site security personnel
- Eliminates the expense of re-keying or changing locks
- Remotely arm/disarm, add/delete users, or change permission levels with mySonitrol.com

SonaVision Video Surveillance

- Allows Sonitrol operators to see and verify that an actual threat exists before the dispatch of the police
- Connect to the facility and access live video activities from a web browser through mySonitrol.com
- Receive archived video or video clips via e-mail from Sonitrol's Central Station

Fire Detection

- Monitor smoke and heat detectors, sprinkler monitoring devices, and pull stations from Sonitrol's monitoring station
- Ensures that fire fighters will be dispatched promptly when an alarm signal is received
- Reduce the likelihood of workplace injuries, property damage, and expensive business interruption
