## Available Now:  All Sonitrol and 3xLOGIC Online, On Demand Training is FREE
Extra downtime on your hands?
Access Online, On Demand Certification Training for FREE for a limited time

**Fishers, IN—06 April, 2020—**Sonitrol and 3xLOGIC, Inc. announced today the immediate availability of its Sonitrol's CLOUD access and mySonitrol.net courses, along with 3xLOGIC's infinias and VIGIL certification training courses. For a limited time only, training is available at zero cost—over 750 people have already taken advantage of this FREE offering. Follow the link below to get started today.

3xLOGIC has developed some of the most user-friendly, easy to install products on the market today. During these challenging times, the company has rolled out its best-in-class, eLearning Academy that's just as user-friendly. 3xLOGIC wants to assist its partners in making productive use of unplanned downtime—get certified!

"Easy to learn solutions that are also easy to install are key differentiators when choosing from the 3xLOGIC ecosystem of solutions, and now our eLearning Academy is available to our valued partners at no cost," said Suzi Abell, Senior Director of Global Marketing, 3xLOGIC.

The Sonitrol CLOUD Access Course introduces the Sonitrol network to the terms, concepts, and hardware associated with their Cloud-managed Access Control offering. A total of seven modules walk the trainee through the configuration, navigation, and management of the user interface and Dealer Portal.

The mySonitrol course is geared toward the end user. This course consists of six modules that instruct on the key concepts from signing on, running reports, editing users, video integration and management of the Sonitrol Access Control System.

New technician training certification for infinias consists of 10 modules and assessments. The infinias Access Control Certification course introduces new terminology to the student, presents core and peripheral hardware, and provides "best practices" for configuration and navigation. Lab work is included by granting the student access with their own account to the infinias Training CLOUD where they will complete tasks such as calendar integration, zone hierarchy, new customer creation, and more.

The VIGIL Video Management course also contains 10 modules featuring current hardware offerings as well as in-depth navigation of the VIGIL Client, Server, and other utilities within the VIGIL Suite of products. This course also provides a VIGIL Server playground with simulated exercises such as adding camera streams, setting up groups and users, and setting recording schedules. All training modules enable 3xLOGIC installer partners to access the curriculum and assessments any time, from anywhere.

All the training programs consist of interactive modules that facilitate learning of the 3xLOGIC and Sonitrol product lines, applications, hardware installation, and software

deployment. Trainees can log in and access the training server for a digital remote, yet hands-on learning experience. "When it comes to on-demand training, 3xLOGIC Certified Partners now have the advantage, and there's never been a better time to make these valuable additions to your skill set," said Bill Hobbs, VP of Global Sales, 3xLOGIC.
