

# Commercial & Business

## Safeguarding Your Business Assets & Peace of Mind

Whether it's a professional office, multi-tenant building, or corporate facility, businesses face security risks ranging from burglary and vandalism to unauthorized access. Sensitive data, expensive equipment, and valuable assets are all at risk. Traditional alarms may detect motion, but don't provide the visibility or control needed to protect employees and property during and after business hours.

### Challenges

**Risk of break-ins, vandalism, data theft, unauthorized entry.**

**Liability issues (if clients or staff are harmed).**

**Reputational risk if a security breach becomes public.**

**Need to protect sensitive data as well as physical assets.**

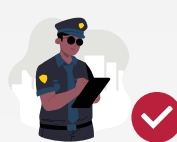

### Why SONITROL CORE?

**Patented Audio Detection**  
identifies intrusions even through ceilings and walls.

**Live Verification**  
by the 24/7 monitoring team reduces false alarms.

**Faster Police Response**  
keeps downtime and losses to a minimum.

**Video Surveillance**  
covers entrances, lobbies, and parking lots.

**Access Control**  
secures server rooms, executive offices, and restricted areas.

## Key Benefits for Commercial Offices & Businesses

### Verified Intrusion Detection

Minimize false alarms, maximize response.

### Video Surveillance

Monitor entrances, common areas, and parking lots.

### Access Control

Restrict sensitive areas like data centers and executive offices.

### Employee & Visitor Safety

Ensure a secure workplace environment.

### Scalable Coverage

Protect a single office or an entire enterprise.

## Why Security Matters

### SMALL BUSINESS CRIME:

### INTERNAL THEFT / FRAUD PROPERTY CRIME

### SONITROL CORE

in many U.S. cities store & business burglaries remain high; shoplifting up ~24% in H1 2024.

\*Guardian Protection

is a consistent cause of losses (for many businesses, not just retail). \*Guardian Protection

is one of the more common risks for offices (break-ins, vandalism), especially for after-hours periods.

combines our exclusive patented impact-activated audio intrusion, access control, and video on one platform.

### FASTER POLICE RESPONSE

\* Average response times
